

Filippo Di Meglio

Plastic and Reconstructive Surgery

Profile

Driven personality, quick learner, passionate surgeon.

I am currently enrolled in the Fellowship program of China Medical University Hospital, performing surgeries and learning from world-renowned Professor Hung-Chi Chen.

In the last few years, my focus has been on breast, eyelid, and body contouring surgery. Currently, I am focusing on developing skills and experience in general aesthetic surgery of the face, training in face and neck lifting, and rhinoplasty.

Employment History

Plastic Surgery Fellow at China Medical University Hospital, Taichung

February 2023

Performing surgeries and learning from world-renowned Professor Hung-Chi Chen.

Face Aesthetic Surgery Trainee at Hope Aesthetic Clinic, Taipei

June 2023

Following and assisting in a practice focused mainly on rhinoplasty and on general aesthetic surgery of the face

Post Gradué (PG) at CHU Brugmann, Brussels

July 2022 - February 2023

As part of my specialty training I have been engaged in a hands-on surgery stage at Brugmann Hospital in Brussels, where, as a PG enrolled in the surgical equipe I had the opportunity of performing numerous operations in the field of breast surgery, face aesthetics surgery and hand surgery.

Plastic and Reconstructive Surgery Resident at Policlinico Umberto I, Rome

November 2018 - October 2023

My residency in Plastic Surgery was mainly based in Rome, where I learned the fundamentals of surgery and where I found many talented colleagues and mentors to help me understand the type of professional I wanted to be.
